

局部：$dp/dr = \rho v^2/r$

$\Delta p_{\mathrm{loc}} = 9.1\,\mathrm{Pa}$

整体：$\bar{p}_{\mathrm{dyn}} = 2\rho Q v/A_{\mathrm{proj}} = 5.34\,\mathrm{Pa}$

$R_{\mathrm{eq}} = 2R_0 + (16R_0 \parallel R_b)$

$k = (15/16)^{1/4} = 0.984\ldots \simeq 0.98$

局部压差与整体平均压强对应不同面积，数值不能互换

$Q = 8.33 \times 10^{-5}\,\mathrm{m}^3/\mathrm{s}, v = 0.118\,\mathrm{m/s}$；膜张力 α 的单位为 $\mathrm{N/m}$
