主轴场 $E_x(x,0)$

无电荷静电延拓
关于 $x$ 轴镜面对称

$$E_x = E_0(1 - x^2/L^2 + y^2/L^2)$$
$$E_y = 2E_0 xy/L^2$$

$$\boldsymbol{\nabla} \cdot \boldsymbol{E} = 0, \quad \boldsymbol{\nabla} \times \boldsymbol{E} = 0$$
