
迭代并取极限

$$I_{1x} = \frac{5}{144}ML^2, \quad I_{1y} = \frac{7}{144}ML^2$$

$$I_{2x} = \frac{197}{2880}ML^2, \quad I_{2y} = \frac{199}{2880}ML^2$$

归一化弧长测度趋于均匀面积测度

$$I_{\infty x} = I_{\infty y} = \frac{ML^2}{12}$$
